

**NOW OFFERING**

**Apple Pay**

The Apple logo is a registered trademark of Apple, Inc.

## A NEW WAY TO PAY

***Add your CFCCU Debit Card to Apple Pay™ for a whole new way to pay!***

Now you can use your CFCCU Debit Card with Apple Pay™ on your iPhone 6®, iPhone, Apple Watch™, iPad Pro®, iPad Air 2®, or iPad mini 4® or iPad and experience a whole new way to pay.

### **A new way to pay**

Adding your CFCCU Debit Card to Apple Pay™ provides innovative security features and convenience. Simply use your TouchID™ thumbprint or passcode to authorize a purchase. There is no need to swipe your card and use your card number.

### **How it works**

When you use Apple Pay™, your actual card number is never shared with the merchant and is not stored on the device. Instead, Apple Pay™ creates a Device Account Number to process your payment. When you make a purchase, the Device Account Number is used to process your payment.

### **Getting started**

1. Make sure your iPhone, iPad or Apple Watch is compatible with Apple Pay™ and has the latest version of iOS.
2. Add your CFCCU Debit Card to Apple Pay™.
3. Pay with a single touch at thousands of stores and in participating apps.

## A NEW WAY TO PAY

Add your CFCCU Debit Card to **Samsung Pay** for a whole new way to pay!

# SAMSUNG pay

Now you can use your CFCCU Debit Card with **Samsung Pay**. Samsung Pay works with higher-end Samsung phones: the Galaxy S7, S7 Edge, S6 Edge+, S6, S6 Edge, S6 Active and Galaxy Note 5. It is also available on the Gear S2 smartwatch, but only for transactions on NFC

terminals. Visit the Samsung site for the most up-to-date list.

### A new way to pay

Adding your CFCCU Debit Card to **Samsung Pay** provides innovative security features and convenience. Simply use your TouchID™ thumbprint or passcode to authorize a purchase. There is no need to swipe your card and use your card number.

### How it works

When you use **Samsung Pay** your actual card number is never shared with the merchant and is not stored on the device. Instead, **Samsung Pay** creates a Device Account Number to process your payment. When you make a purchase, the Device Account Number is used to process your payment.
