## Truth-In-Savings Account Disclosures

**Except as specifically described, the following disclosures apply to all of the accounts. All accounts described in this Truth-in Savings Disclosure are share accounts.**

**1. Rate information:** The Annual Percentage Yield is a percentage rate that reflects the total amount of dividends to be paid on an account based on the dividend rate and frequency of compounding for an annual period. For all accounts, the Dividend Rates and Annual Percentage Yields are prospective rates and yields that the Credit Union anticipates paying for the applicable dividend period, and may change at any time as determined by the Credit Union's Board of Directors. The Share Plus and Super Money Market Accounts are tiered rate accounts—once a particular range is met, the Dividend Rate and APY for that balance range will apply to the full balance of the account.

**2. Nature of Dividends:** Dividends are paid from current income and available earnings after required transfers to reserves at the end of the dividend period.

**3. Balance Computation Method:** We use the average daily balance method to calculate dividends on your account. This method applies a periodic rate to the average daily balance in the account for the period. The average daily balance is calculated by adding the balance in the account for each day of the period and dividing that figure by the number of days in the period.

**4. Compounding and Crediting:** Dividends will be accrued monthly and credited to your account on the last day of each calendar quarter (except for S2-DID, S11-Share Plus, and S21-Super Money Market Accounts, which will be credited to your account on the last day of each calendar month.) If you close your account before dividends are credited, you will not receive the accrued dividends.

**5. Accrual of Dividends:** Dividends begin to accrue the day cash and non-cash items (e.g., checks) are deposited to your account. (Please refer to Your Ability To Withdraw Funds attachment that explains rules set forth in Regulation CC. )

**6. Withdrawal Limitations:** For the S2-DID, S11-Share Plus, and S21-Super Money Market accounts, you are limited to 10 debits per month. A charge of \$1.00 per transaction will be assessed beginning with the eleventh debit transaction in a calendar month. For the S4-Christmas Club account, funds may be withdrawn in the final calendar quarter of the year. For the S8-Vacation Club account, funds may be withdrawn in the third calendar quarter of the year. Withdrawals outside of those specified periods will be subject to a \$1.00 fee per withdrawal.

**7. Fees:** Other fees may be charged on your statement; see the fee schedule for more information.

**8. Income Tax:** We will send you a statement showing the total interest or dividends earned during the year so you can include it in your return, or if you fail to provide us with a proper taxpayer identification number, we may be instructed by the Internal Revenue Service to withhold a percentage of your interest or dividend income. The amount withheld will be sent to the Internal Revenue Service.

## Truth-In-Savings Account Disclosures

**Except as specifically described, the following disclosures apply to all of the accounts. All accounts described in this Truth-in Savings Disclosure are share accounts.**

**1. Rate information:** The Annual Percentage Yield is a percentage rate that reflects the total amount of dividends to be paid on an account based on the dividend rate and frequency of compounding for an annual period. For all accounts, the Dividend Rates and Annual Percentage Yields are fixed and will be in effect for the initial term of the account. For accounts subject to dividend compounding, the Annual Percentage Yield is based on an assumption that dividends will remain on deposit until maturity. A withdrawal of dividends will reduce earnings.

**2. Dividend Period:** For each account the dividend period is the account's term. The dividend period begins on the first day of the term and ends on the maturity date.

**3. Balance Computation Method:** We use the average daily balance method to calculate dividends on your account. This method applies a periodic rate to the average daily balance in the account for the period. The average daily balance is calculated by adding the balance in the account for each day of the period and dividing that figure by the number of days in the period.

### 4. Compounding and Crediting:

Dividends for your account will be accrued daily and credited to your account on the anniversary day of each fiscal quarter.

**5. Accrual of Dividends:** Dividends begin to accrue the day cash and non-cash items (e.g., checks) are deposited to your account.

**6. Transaction Limitations:** After the account is opened, you may not make deposits into or withdrawals from the account until the maturity date.

**7. Early Withdrawal Penalty:** If you withdraw any principal before the maturity date, a penalty will be charged to your account. The penalty for an account with a term of one year or less is 180 day's dividends. The penalty for an account with a term over one year is 360 day's dividends.

**8. Renewal Policy:** This account will be automatically renewed at maturity. You have a grace period of ten (10) calendar days after the maturity date to withdraw the funds without being charged a penalty. The penalty terms are disclosed on the back of the share certificate.

**9. Surrender of Certificate:** It is not necessary to produce your certificate in order to surrender it. If the certificate has joint owners, any one of them may surrender it without the others' signature or consent.

### \*\*\*Step-Up Feature\*\*\*

To exercise your option to change your rate, you may contact the credit union in person or by mail. On the business day the credit union receives your request, the credit union will increase the dividend rate on this account to the dividend rate it then offers for a 36-month certificate for the time remaining on your certificate. If your Step-Up certificate renews at maturity, it will renew at the rate offered for our 36-month certificates on that date.

You will have the option to raise the rate on this certificate ONCE during the term of the certificate.

### \*\*\*\*Youth Add-On Certificate\*\*\*\*

Only available for members under the age of 18 years. Minimum deposit is \$100.00. Maximum deposit is \$30,000. Member may add to certificate balance at any time.
